Day of Wedding

Before arriving to your Up-do appointment:

- Wash and dry your hair the night before, clean and dry smoothed hair is the best to work with. (No flat iron)
- Bring pictures from magazines and/or photos of styles that catch your eye. This will help build a visual for your stylist.
- Wear a button down/zipper shirt or top to avoid removing your shirt over your head.
- Make sure to bring any tiaras, pins, flowers, or hair accessories with you to your appointment.
- If you have long curly hair please notify the receptionist upon booking so timing can be adjusted.

Plan Ahead:

Your hair and make-up are a very important part of your special day. We recommend you schedule your trial bridal style and make-up four to six weeks prior to your wedding day. If you are a color client or are interested in color, we advise that all color/chemical processes be done two weeks prior to the wedding date. Any questions, don't hesitate to ask. Please feel free to call us.

Hair Extensions are perfect for adding length, fullness, volume, body, highlights, lowlights or to help with growing out your hair. Get beautiful, full, sexy hair with our 100% human hair extensions! We provide two types of hair extensions:

Keratin Bonding (like Great Lengths method)

Sewn or Glue Bonded Method (sewing tracks onto braided rows or glue bonding)

Your trial should be scheduled three to four weeks prior to the wedding date.

Bring your camera to your trial run so that you can make sure that you can take a photo and bring it with you on the wedding day service.

Your haircut and hair color should be done two weeks prior.

Schedule highlights, color and perms at least two weeks prior just in case treatment is not what you expected. This will allow the colorist adequate time to make any needed changes.

All girls receiving an up-do must arrive with their hair already washed and completely dried. Do not flat iron your hair if you plan to have a curly hairstyle.

Schedule hair extension consultations six weeks prior to ensure the correct color and application method.

Having a professional makeup artist apply your make up makes a difference! Purchase the shade of lipstick used in your bridal makeup application for touch ups. Cover your lips completely with liner and fill in the lip color. This will decrease the number of re-applications.

Manicures should be done prior to the wedding day to eliminate the chance of cuticle nicks due to dryness or sensitivity.

Waxing or tweezing is recommended two to three days prior to the event in order to eliminate redness and swelling. If you have sensitive skin, schedule your services at least five days prior to the wedding. Waxing rather than shaving allows the bride to have less responsibility during a summer honeymoon.

Facials should be done at least two days prior to the wedding day to improve skin texture. Any skin problems should be addressed by scheduling customized facials and/or peels several weeks prior to your wedding day.
